THIYAGU ARUNACHALAM

SOFTWARE DEVELOPER

Kawasaki city, Kanagawa prefecture, Japan | +81 7090696084 | athiyagu6@gmail.com | LinkedIn

---

PROFILE

A results-driven software developer with around 3 years of experience in full-stack web development. Proficient in Angular, Node.js, SQL, and PostgreSQL, with a strong ability to design scalable applications, troubleshoot complex issues, and collaborate with cross-functional teams. Passionate about learning and implementing new technologies to enhance application performance and security.

SKILLS

- **Frontend**: Angular, React, RxJS, Bootstrap, Angular Material
- **Backend**: Node.js, Express.js
- **Databases**: PostgreSQL, SQL
- **Testing**: Cypress
- **Programming Languages**: JavaScript, TypeScript, Python
- **Tools & Technologies**: NgRx, REST APIs, JWT Authentication, CI/CD, Web Security Best Practices
- **Soft Skills**: Problem solving, Adaptability, Time Management, Attention to details
- **Languages**: English (Advanced), Japanese (Intermediate), Tamil (Native)

WORK EXPERIENCE

Tomato Co., Ltd | Shibuya, Tokyo, Japan

System Engineer (November 2025 – Present)

- Completed training in Japanese Business Manners, including workplace etiquette, communication norms, and professional conduct in Japanese corporate environments.
- Developing and maintaining front-end web applications using Angular, focusing on responsive UI, component-based architecture, and integration with RESTful APIs.

CodeMax IT Solutions | Goa, India (April 2023 – September 2025)

Software Developer (April 2024 – September 2025)

- Developed and optimized new angular modules with **dynamic components**, improving UI responsiveness and reducing redundant re-rendering by 25%.
- Engineered a multi-step dynamic onboarding form with **Angular Reactive Forms**, integrating validations, conditional fields API driven data fetching for seamless user experience.
- Developed and integrated **scalable REST APIs in Node.js** reducing response time by 40% through efficient query optimization and caching.
- Implemented **role-based access control (RBAC)** with **JWT authentication and OAuth 2.0**, ensuring secure user management and compiled with the security best practices.
- Conducted security-audits and mitigated vulnerabilities like **XSS, CSRF and CORS issues**.
- Refactored directives into **ES6-compatible code**, reducing build size by 10%.

Angular Developer (April 2023 - April 2024)

- Upgraded Angular projects to the latest versions, ensuring compatibility and enhanced features.
- Implemented multi-language support (**I18N**) for accessibility.
- Optimized angular application **Lazy loading, AOT Compilation and tree-shaking**, improving initial page load by 30% and improving scalability.
- Designed a **white-label angular architecture**, enabling multi brand customization without changing core functionality.
- Implemented modular onboarding workflow with state management **NgRx**, reducing form submission error by 30% and enhancing API communication efficiently.

Centiyent | Coimbatore, India

Full Stack Developer (June 2022 - March 2023)

- Worked on a SIEM-based web application focused on monitoring, analyzing, and visualizing security events through a scalable and reusable front-end architecture.
- Built and maintained 40+ reusable Angular components, cutting development time by ~30% across similar projects.
- Implemented secure authentication and authorization using JWT and bcrypt, ensuring safe access control across the platform.
- Designed and developed 20+ RESTful APIs using Node.js, with PostgreSQL for efficient and reliable data storage.
- Contributed to event data handling and visualization aligned with SIEM use cases such as log analysis and security monitoring.
- Performed unit and UI testing using Cypress, identifying bugs early and improving overall UI stability and user experience.
- Collaborated closely with cross-functional teams to deliver secure, scalable, and performance-optimized features.

EDUCATION

Gandhigram Rural Institute| Dindigul

Master of Science – Physics (June 2019 – July 2021)

CERTIFICATIONS & AWARDS

- **Software Developer of the Quarter (Q2, 2024) – CodeMax IT Solutions**
    - Recognized for exceptional performance, technical excellence, and key contributions in development.
